

Immunization Requirements for Daycare/Pre-K3/Pre-K4 for Infants up to 60 months of age (5 years old)

DTaP, DTP- Minimum of 4 doses with 1 of those doses on or after the students 4th birthday

Haemophilus Influenzae Type b (Hib)- A primary series consists of either 2-3 doses. The child's age governs how many doses are required. Unvaccinated students between the ages of 15-60 months are only required to have 1 dose.

Hepatitis B Vaccine- A complete series of 3 doses of Hepatitis B is required for all children. At least 4 months is required between the first and third doses. 1 dose must be given AFTER the age 6 months.

Measles, Mumps and Rubella Vaccine (MMR)- A minimum of 2 measles, 2 mumps and 1 rubella. (Most children receive 2 doses of each because it is generally a combined vaccine). The first dose must be administered at 12 months and the 2nd dose must be administered prior to kindergarten.

Pneumococcal Vaccine (PCV)- One to Four doses, depending on age at first dose of pneumococcal conjugate vaccine are required.

Polio Vaccine (IPV)- A minimum of 4 doses. The student must have one dose administered on or after the students 4th birthday. (A 4th dose is not required IF he 3rd dose was administered at 4 years of age or older AND at least 6 months following the previous dose)

Varicella (Chickenpox) Vaccine- 2 doses required. The first dose to be administered at 12 months and the second dose to be administered prior to entering kindergarten.

THE STATE OF VIRGINIA ALLOWS THE FOLLOWING PERTAINING TO VACCINES

1. **Conditional Enrollment**- if the student has at least one dose of each of the required immunizations AND with a plan for receiving the remainder of the doses WITHIN 90 DAYS.
2. **Religious Exemption**- Form CR-1 is an affidavit stating that the administration of immunizing agents conflicts with the students religious tenet or practices. It must be signed by a NOTARY PUBLIC and STAMPED WITH THE NOTARY'S SEAL.
3. **Medical Exemption**- the school must have written certification from the doctor or local health department stating that one or more of the required immunizations may be detrimental to the students health. Such certification of medical exemption shall specify the nature and probable duration of the medical condition or circumstance that contraindicates immunization.

Immunization Requirements for Students in K5-12th Grade (5 years and older)

DTaP, DTP- Minimum of 4 doses with 1 of those doses on or after the students 4th birthday. Adult Td is required for children 7 years of age and older who do not meet the minimum requirements for tetanus and diphtheria.

Tdap- 1 dose required for rising 6th graders prior to the beginning of the school as long as it has been 5 years since the last tetanus containing vaccine was given.

Hepatitis B Vaccine- A complete series of 3 doses of Hepatitis B is required for all children. At least 4 months is required between the first and third doses. 1 dose must be given AFTER the age 6 months.

Measles, Mumps and Rubella Vaccine (MMR)- A minimum of 2 measles, 2 mumps and 1 rubella. (Most children receive 2 doses of each because it is generally a combined vaccine). The first dose must be administered at 12 months and the 2nd dose must be administered prior to kindergarten.

Polio Vaccine (IPV/OPV)- A minimum of 4 doses. The student must have one dose administered on or after the students 4th birthday. (A 4th dose is not required IF he 3rd dose was administered at 4 years of age or older AND at least 6 months following the previous dose)

Varicella (Chickenpox) Vaccine- 2 doses required. The first dose to be administered at 12 months and the second dose to be administered prior to entering kindergarten.
